

Passionate and reliable junior fullstack developer with skills in JavaScript, HTML, TypeScript, and React, coupled with hands-on experience in both frontend and backend technologies. Specializes in developing and optimizing user-friendly and responsive web interfaces and components. Experienced in collaborating in project meetings, using CDN script files and writing clean code. Eager to advance in a growing company and build on over 3 years of team collaboration and project management experience. Driven by problem-solving, a growth mindset, and a willingness to learn new frameworks and processes.
